## Wireless Charging has been around since 1820!

In 1820, using an electric current and a magnetic compass, Danish physicist Hans Christian Oersted originally discovered that electric currents can create a magnetic field. But the history of wireless charging doesn't stop there! A decade later, Michael Faraday, an English scientist discovered electromagnetic inductive wireless charging!

**A perfect accessory in your Office desk...  
Experience the Convenience of a Wireless Charger with Pen Holder Stationery.**

Staying connected and organized is more important than ever. With the rise of remote work and digital communication, having the right tools at your fingertips can make all the difference.

**10W** Fast Wireless Charging

**JU-WDS2-BM**
